Panorama Laminated Wooden Flooring by Aavana Greens offers a perfect blend of aesthetics and high-performance durability, making it ideal for modern interiors. The flooring features advanced EIR (Embossed-in-Register) technology, where the surface texture precisely matches the wood grain, delivering an authentic natural wood feel both visually and tactilely.

Designed with elegant V - Groove edges, it enhances plank definition and creates a realistic hardwood appearance with depth and character. Its AC4 rating makes it highly resistant to scratches, stains, and heavy foot traffic, suitable for both busy homes and light commercial spaces.

With excellent wear resistance, easy maintenance, and premium finish, Panorama flooring is a reliable, stylish, and long-lasting flooring solution.
